Vastle, LLC

Miami, FL 33150

About Vastle

Vastle's Team consists only of its founders. The company's goal is to develop community based games/platforms that meet the needs of players, and content creators, and apply such needs to our liking and continuing providing content that the community desires.

The Foundation

Vastle has been established to pursue our team's goal, to transition from just a Minecraft network, to a fully-pledge company. Since the initial release of VastLands, which was in (November 2016)

VastLands, our Minecraft network, was peaking at about 1500 concurrent players, serving over 100 thousand joins monthly. We've had over 6 game modes. Taking a total of 3 dedicated servers. In late 2019, Andre, and Derek thought about the formation of Vastle, which is actually derived from "VastLands", and finally, after months of planning, Vastle was eventually formed/registered on 5/18/2020

Investors

Looking to invest into Vastle? We allow about just anyone to invest Into Vastle, and the project that awaits it! You'll usually get back a fixed percent added to the original amount you invested into Vastle. The timespan/percent varies. For investment inquiries, or other questions, be sure to shoot us an email, which can be found via the Contact section.
